

ToppPart™ bent tubes for easy installations

ToppPart™ tubes that are bent into shape are ready-to-install pneumatic and liquid tubes. Therefore, installing ToppPart™ tubes is easy and fast. And of course, even shorter installation time means saving!

ToppPart™ tubes are an alternative to applications that do not have room for traditional piping or where metal tubes cannot be fitted. We customize ToppPart™ tubes for our customers as needed. We can manufacture both 2D and 3D formats. There are also available several different colours.

We manufacture ToppPart™ tubes from several different materials.
